

CAKASA

(NIG) COMPANY LIMITED

....equipped to keep the Oil and Gas Industry moving

Company Overview

CAKASA (Nigeria) Company Limited was incorporated in 1974 and commenced operations as a trading house in 1979. Through strategic foresight and sound management principles, CAKASA has evolved to become an unrivaled Engineering, Procurement and Construction (EPC) entity; an undisputed leader in Facilities Operation and Maintenance Services; and a one-stop shop for provision of Equipment and Leasing Services. Our world class services are deployed to clientele in the oil & gas (Upstream Midstream and Downstream subsectors) and infrastructure industries of the Nigerian and West African sub-regional markets.

CAKASA has in place a disciplined and client focused framework built on a flexible and dynamic approach that makes it feasible to create, build and deliver value that meets the diverse and specific needs of each client. At the heart of this framework is a people-oriented paradigm that consciously harnesses, integrates and leverages the collective intellectual capital of our workforce. This has a powerful effect of encouraging and empowering the employees to develop innovative solutions for complex challenges, without compromising quality, health, safety and environment standards.

CAKASA's vast knowledge wellhead built over four decades of EPC capability and expertise promotes collaboration and provides a systematic way to capture, share and reuse the knowledge to provide cost-effective, intelligent solutions in a timely manner. Thus, the systematization of our processes and systems was inevitable. Currently introducing ISO 14000 requirements into all our processes, CAKASA is ISO 9001:2015 certified. To get to this point, CAKASA implements the highest standards of corporate governance and specifically submitted itself to third-party checks through its certification by the United States based Trace International.

Vision

To be a world class engineering solutions company of choice.

Mission

To passionately provide engineering solutions that exceed customers' expectation.

Cakasa Policy Statement

We shall continuously deliver engineering, procurement, construction and after-sales services to the oil & gas sector and industrial infrastructure clients that meet customer needs and expectations as well as statutory and regulatory requirement as a demonstration of our total commitment to our interested parties satisfaction and continual improvement of our quality management system

Core Values

Diversity inclusion | Integrity | Professionalism
Quality + Safety | Customer Satisfaction

Our Services

Engineering Services

Engineering Services We deliver high end engineering services through our subsidiary, Cakasa Engineering Services Limited (CESL). The spectrum of services provided include;

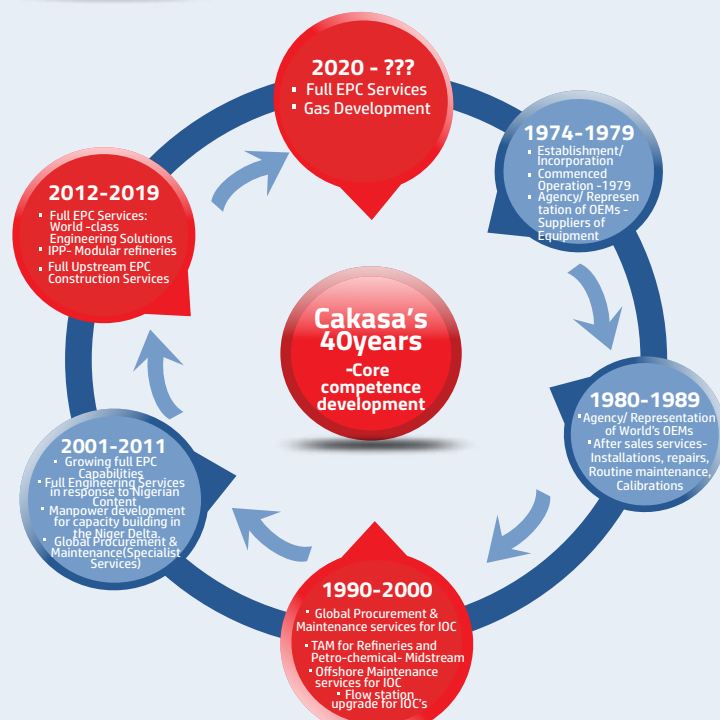

- Economic and Technical Feasibility Studies
- Conceptual Design
- Front end Engineering Design (FEED)
- Detailed Engineering Design (DED)
- Drafting and As-built Drawings
- 3D Modeling
- Laser Scanning & Dimensional Control

Procurement Services

CAKASA maintains a strong relationship with reputable overseas Original Equipment Manufacturers (OEMs) whose products are used in the Oil and Gas and Process industries. Through our strong partnerships and alliances with them we supply heavy duty Construction and Rotating Equipment to Upstream, Midstream and Downstream subsectors as well as Infrastructure Industries

Our Partners include:

- TECHNIP FMC: Measurement solutions(Liquid, gas & Integrated systems), Marine Loading Systems.
- ITT-GOULD'S: Centrifugal (Multi-stage, single stage, submersible etc), API & ANSI Pumps
- Globe Gas: LPG Bullet Tanks & Equipment Manufacturer (www.globegas.com)
- ROTORK CONTROLS: Electric actuators (IQ, IQT...) Fluid powered, Valve Gearboxes & Instrument Control (www.Rotork.com)
- IGT Motors: Manufacturer of Automotive, CNG & LPG dual fuel conversion kits/System (www.igtmotors.com.br)
- Tecknowgas: LPG, CNG & LNG Consultant
- Gardner Denver/Emco-Wheaton - LPG truck loading Arms, folding staircase and grinding device.
- Makeen Energy - LPG Depot & Bottling plant equipment, supply and maintenance
- Sarl Sara/ MB Fluid/ ISI (France) - Complete Fire fighting systems
- Paressa, S.p.A. : LPG spherical tanks and pressure vessels fabrication.
- Tatsuno India Petroleum Limited- Dispensing Pumps and Accessories

Construction Services

CAKASA is an industry leader in construction activities, with proven competence and expertise in Engineering and Construction of petroleum terminals (platforms, jetties, etc) and storage facilities including aviation fuel storage and dispensing facilities;

- Specialty in design and construction of Liquefied Petroleum Gas storage systems and technical expertise.
- Turnkey construction Capability and Infrastructure
- General civil construction works, including roads, high rise buildings, parking lots, etc.

We deliver superior value through a high-level commitment to each client. This is achieved by adopting partnership-based initiative with the client and employing innovative and world class construction methods and procedures.

Maintenance Services

As far back as 1979, Maintenance and Products services arm of the company commenced as agent / distributor of oil & Gas equipment. We have sustained and successfully developed the Nigerian market for our world class manufacturers in the last 4 decades. As a result of this, we have been part of the transformation process of these companies.

Our early entrance and progress in technology expertise enabled us prepare for the challenges of the Nigerian content ahead of its promulgation. We started by training a dedicated team to provide after sales services for all equipment sold in Nigeria. This has provided opportunity for Technology transfer and the need to develop a highly technical team to cope with the challenges of providing medium scale and global maintenance services.

We have a number of well-maintained equipment and facilities within Nigeria. Our workshop facilities in Port Harcourt is fully equipped to provide onshore workshop/machining services. The Port Harcourt facilities occupy 10,000sqm space.

Specifically, we have developed competence in the following area of operations and maintenance services.

- Offshore and Onshore Facility Operation & Maintenance
- Metering Systems (Gas and Liquid), Prover Loops, Samplers and Instrumentation. Crude Custody transfer point mtce & operation - Upstream
- Tank Farm Operation & Maintenance - Downstream
- Certification of fiscalization Instruments, Pressure Relief/ Pressure Safety Valves, Control Valves, MOVs, Isolation valves etc
- Electric & Hydraulic Actuators, Pumps repairs, servicing & overhaul
- Catalyst & Molsieve Adsorbent Handling Services
- Industrial cooling systems repairs
- Tank Gauging Systems & Tank Accessories
- Scaffolding Services
- Pipeline modifications & repairs
- Refinery Back-up Maintenance & TAM
- Workshop & Machining Services
- Specialised Crane Lifting & Transportation Services

Equipment and Leasing Services

Equipment & Leasing Services was established 2017 to cater for Cakasa equipment. Repairs/maintenance and leasing out Equipment to external clients. This unit has been part of Cakasa success stories in project timely delivery to meet customers' demand and satisfaction. We service construction unit, procurement unit, gas services unit and external clients.

Our services include but not limited to

Health, Safety & Environment

Successfully managing HSE issues is an essential component of our business strategy. Through observance and encouragement of our HSE Policy and Program, we assist in protecting the environment and the overall well-being of all of our stakeholders, specifically, our employees, clients, subcontractors, and host communities. Our goal is to minimize impact to the environment and to prevent harm to all who could be affected by our operations.

We are committed to reducing waste, emissions and discharges in all areas where we work and by using energy efficiently. We strive to be good citizen in every community in which we operate. Cakasa will maintain awareness of HSE issues, so as to be proactive in providing a value-added service to our client.

Nigeria Content

It is our intention to promote the Nigeria Content initiative of the Federal Government of Nigeria in optimizing the use of local resources and materials in the execution of our projects. Cakasa understands the need for sustainable development, and we are committed to the concept and the use of local resources. To this end, we shall continue to employ and train Nigerian citizens in all the disciplines that support the execution of our projects. We expect the mix of our personnel and those of our partners working together to produce a remarkable transfer of technology from our technical partners to Cakasa over the next few years as our personnel acquire the experience and skill to perform the work.
